Splashtop Antivirus

Endpoint security just got easier with our new and improved **Splashtop Antivirus powered by Bitdefender**.

Key features

- **Silent Install/Uninstall** – Easily install Splashtop Antivirus on your Windows and Mac endpoints and get notified about threats all within Splashtop console, without requiring any user interaction.
- **Customize Policies** – Configure customized antivirus policies for specific computers and groups
- **Anti-malware Scanning** – Schedule quick or full on-demand scans and enable on-access scanning for real-time protection against malware.
- **Advanced Threat Control** – Continuously monitor apps and processes using Bitdefender's heuristic scoring algorithm to detect publicly known as well as new threats before they are associated as risks.
- **Device Scanning** – Prevent sensitive data leakage and malware infections from external USB devices and CD/DVD media.
- **Web Traffic Security** – Leverage firewall, anti-phishing, and traffic scanning to block unauthorized connection attempts and protect users from fraudulent websites or malicious content such as spyware or viruses.
- **Whitelist & Exclusions** – Add files, folders, processes, extensions, and URLs to a whitelist and exclude them from being scanned by anti-threat and anti-phishing engines.
- **Alerts & Logging** – View protection status and logged threats for each device and get notified in real-time when a threat is detected or blocked.

Benefits

- Protect your business, mitigate risks of cyber-attacks, and improve security posture.
- Seamlessly manage and deploy antivirus from within Splashtop's remote access and support solutions.
- Get real-time endpoint protection with industry's leading technology at competitive prices.
